2019 North America Conference on Lung Cancer October 10-12 in Chicago

On behalf of the International Association for the Study of Lung Cancer (IASLC), we are pleased to invite you to the IASLC 2019 North America Conference on Lung Cancer, taking place October 10-12, 2019 at the Fairmont Chicago Millennium Park. The conference is a great opportunity to network across disciplines with other people with careers focused on thoracic malignancies. Close to 1,000 participants are expected to attend to discuss important topics surrounding the latest developments in prevention, detection and care. Additionally, the National Cancer Institute's (NCI) acting director, Douglas R. Lowy, MD, will give a keynote speech at the conference on October 11, focused on "NCI Perspectives: Lung Cancer Initiatives."

October 10-12, 2019

Fairmont Chicago Millennium Park

IASLC designates this activity for a maximum of *12 AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

At the conclusion of this activity, participants will be able to:

- Examine scientific advances in thoracic cancer including the pathogenesis, biology, and mechanisms of drug interactions that can be used to make evidence-based diagnosis and treatment decisions.
- Synthesize cutting edge research from clinical trials and translational studies conducted around the world to deepen knowledge within primary specialty area(s) and broaden knowledge of other specialties.
- Advocate for lung cancer prevention strategies including tobacco control, smoking cessation, reducing environmental risks, addressing the quality and value of healthcare, and implementing early screening.
- Apply evidence-based recommendations and clinical practice guidelines to diagnose and manage patients.
- Collaborate on multidisciplinary teams to improve patient outcomes through patient-centered diagnostic, therapeutic and palliative care.
- Engage and empower patients to become active participants in their treatment.
